## Windows Tablet - Required Setup

## S-Mode

This tablet comes preloaded with Windows 10 in S mode. This is a special security mode that prevents installing programs from outside of the Microsoft Windows Store <u>and will prevent you from installing The Edge</u>.

Follow these instructions to switch your tablet to regular Windows 10 Home. It only takes a few seconds!

## **Changing to Windows 10 Home**

1. Press the Windows Start button at the bottom left.

2. Click the Settings icon (gear) located above the power icon.

3. Click Update & Security in the lower left of Windows Settings.

4	Settings								.0

Switch out of S mode Windows 10 gives you the freedom to choose the mode of Windows that fits the way you work and live. If performance, security and peace of mind are your top priorities, stick with Windows 10 in S mode. Every app you install from the Store has been verified by Microsoft. Want more options? You can switch out of S mode to install apps including those not verified by Microsoft, but you won't be able to return to S mode once you've switched. Learn more at S mode Support FAQ.									
Save and close all your files before you start to install Windows 10 - S mode Switch.
