

Customer Sizing - Import

Overview

A **Sizing** tab was added to the Edge customer record. Additionally, these fields have been added to the **Customer Import/Export** wizards to allow you to add this information more easily from other sources.

Exporting/Importing Sizing Information

To export customers:

1. Click **Customer > Utilities > Customer Export**.
2. Enter criteria and choose a file type to export to. See the **Customer Import/Export Wizard** document for more information on using this feature.
3. Complete the wizard to generate your exported file.
4. When opened, you will see sizing columns included in the export:

AO	AP	AQ	AR	AS	AT	AU	AV	AW	AX	AY	AZ	BA
csNeck	csLeftWrist	csLeftThumb	csLeftIndex	csLeftMiddle	csLeftRing	csLeftPinky	csRightWrist	csRightThumb	csRightIndex	csRightMiddle	csRightRing	csRightPinky

5. Fill these in and save your changes.

To import customers:

1. Click **Customer > Utilities > Customer Import**.
2. Select the file with your sizing data, then click **Next**.

3. Make sure the columns in your source data that contain sizing data are properly mapped.

Customer Import Wizard

Column Mappings

Source Columns	Edge Columns	First Record
cup type	phone type	Gen
csNeck	Neck	2
csLeftWrist	Left Wrist	3
csLeftThumb	Left Thumb	4
csLeftIndex	Left Index	5
csLeftMiddle	Left Middle	6
csLeftRing	Left Ring	7
